

## **MEADOW MUSHROOMS COMPANY POLICY ENVIRONMENTAL**

Formed in 1970 as a private company, Meadow Mushrooms Ltd. is today the largest producer of mushrooms in NZ. Meadow's is fully vertically integrated from spawn and compost production through to despatch and delivery of fresh, canned and frozen mushroom products. With the head office based at its original site in Prebbleton 20 minutes outside of Christchurch, Meadow's employs approx 540 people nationwide.

The environment is an integral part of our business and we acknowledge the relationship between the environment and our products and activities. Our commitment to the environment will be a guiding principle in our business planning and development.

### **TO ACCOMPLISH THIS WE WILL:**

- ✓ Take account of environmental issues in all decision making
- ✓ Comply with the conditions of all our resource consents and other relevant environmental legislation and regulations
- ✓ Ensure that any environmental impacts are at the lowest level possible, consistent with sound operation and economics of production
- ✓ Put in place programmes to continually improve the company's environmental performance of all sites and to reduce the environmental risk
- ✓ Develop an awareness and understanding among the Company's employees of the interactions between the environment and the Company's activities
- ✓ Influence all employees, contractors and the people working on behalf of the company to consider and respect the environment and to seek to protect the environment in the course of their activities
- ✓ Be a good and open neighbour, committed to maintaining a good faith relationship with the community and the environment
- ✓ Conduct regular environmental audits
